EXPERIENCE

Project: Service Token Solution | ABN AMRO Bank, Netherlands

Apr 2022 - Sep 2024

Roles and Responsibilities:

- Designed engaging and intuitive visual layouts for website user interfaces.
- Conducted comprehensive user research and usability testing to gather valuable feedback and insights.
- Crafted Wireframes, Prototypes, and Mockups to visualize and refine design concepts.
- Designed and maintained innovative knowledge articles in Confluence, which improved team efficiency by leading to a 70% - 80% reduction in false/ out-of-scope requests.
- Got multiple appreciation from product owner, managers and stakeholders by presenting infographics and innovative PPTs and delivered impactful live demonstrations.
- Developed clean, structured code using HTML, CSS, and JavaScript to upgrade and enhance existing sites with new user-friendly features.
- Created and refined user stories based on requirements as an integral part of a Scrum team.
- Led daily stand-ups, epic/sprint planning, refinement sessions, and sprint reviews with product owners and stakeholders.
- Built and deployed new application features via Jenkins/Azure DevOps pipelines and repositories.
- Transformed and streamlined over 5 application Azure DevOps pipelines, reducing dependency on multiple deployment tools and infra teams, while boosting client revenue by decommissioning outdated tools.
- Managed incidents, events, problems, and tasks in ServiceNow, consistently meeting SLA targets.

Project: People Tracker | Infosys

Mar 2021 – Apr 2022

Roles and Responsibilities:

- Implemented new features in dynamic web pages using HTML/CSS and React, leveraging SDLC management processes to deliver high-quality, scalable solutions aligned with business objectives.
- Collaborated with cross-functional teams, product managers and end users to ensure seamless experience.
- Maintained structured and clean code utilizing version control tools like Git, GitHub, and Bitbucket.
- Deployed applications in Tomcat servers across both development and production environments.
- Performed thorough regression and end-to-end testing post-deployments to ensure smooth functionality.
- Manipulated data efficiently using SQL with PostgreSQL Database.
- Handled user requests via JIRA/emails and provided appropriate roles through the portal.
- Conducted Disaster Recovery Activities and generated comprehensive test reports.
- Provided knowledge transfer to new joiners, guiding them to deliver tasks on time.

EDUCATION

B. Tech | Information Technology

Jul 2016 – Sep 2020

Anna University, Chennai, India.
